Travel Updates

Welcome

The Florida Department of Transportation (FDOT) has completed the Project Development and Environment (PD&E) Study to extend SR 7 from SR 704 (Okeechobee Boulevard) to Northlake Boulevard. The purpose of this study was to develop several viable alternatives and evaluate each one for potential impacts with respect to social and environmental concerns. Public input played a vital role throughout the process.

The proposed improvements include the widening of SR 7 from two to four lanes from Okeechobee Boulevard to 60th Street and construction of a new four lane divided facility from 60th Street to Northlake Boulevard. Bicycle lanes, sidewalks, and roundabouts are included as part of the improvements. This project is now in the design phase. The final PD&E Study documents are available on the [Documents & Publications page](#).

Study At-A-Glance

District

Four

Project Start Date

2005

PD&E Study Completion Date

February 2015

Estimated Completion Date for Design

February 2017

Estimated Completion

Date for Construction
2019

Construction Cost
\$60 Million

Lengths and Limits
From SR 704
(Okeechobee Boulevard)
to Northlake Boulevard in
Palm Beach County

Contractor
TBD

Consultant
Stantec

Design Project Manager
Mr. Fausto Gomez, P.E.
